

OHenry Tent Tops and walls are American made. We do not import Tops or walls from overseas. We build our own, right here in Waco, Texas.

Approved vendor to the U.S. Army, Air Force & FEMA!

- Ohenry tents are built for commercial, and industrial use. We build all our tents to endure multiple set ups and takedowns. Ohenry tents are specifically designed to endure the daily abuse of a rental environment. For 25 years we had a tent rental division, and we know by experience the abuse a rental tent can be subjected to.
- All Ohenry tents are constructed with 100% American made products when possible. We refuse to use inferior and less expensive tent material, rope, webbings or hardware. A tent using inferior components will cost 60% less to manufacture, but simply will not last.
 - Please examine closely the perimeter "edge work" as well as the lace lines, corner fittings, center pole fittings and side pole fittings of any tent you are contemplating for purchase, regardless of the manufacturer. These are the areas where shortcuts are made to reduce cost of manufacturing. However, these are the most critical areas of tent construction, and any shortcuts made here will simply guarantee that the tent will not last as it should!
- When you buy an Ohenry tent, you know the fabric is first run (no seconds) quality material. Our side walls are also constructed of 14 - 16 oz material. We do not use the inferior 10 oz material common to many manufacturers.

Compare Ohenry Material Specifications & Structure

Feature / Specs	Ohenry	Competitors
Material Weight - Tops	16-17 oz.	10-16 oz.

Distance Between Side Poles (pole tents)	5' most sizes	10'
Stress Point Material Layers	3-5 Layers	1-3 Layers
Warranty Against Defects	1 year	Not Always Available
Where Manufactured	U.S.A.	Many Are Cheap Imports

Since 1979 OHenry productions Inc. has been manufacturing heavy duty party tents for the commercial tent industry. We specialize in the construction of frame tents, high peak pole tents and traditional pole tents which meet the demands of the party tent rental industry.

Our manufacturing facility is located in Waco, Texas. The main plant is situated on ten acres in a 22,000 Sq. Ft. building. We also have our own graphics and sign shop where we design and fabricate the logos we install for customers on their tents.

OHenry 30' & 40' wide WIND VERSION Pole tents & OHenry 50'-100' Wide Pole Tents have nearly twice the number of side poles and stakes as other manufacturers. This give our tents double wind resistance, and much better drainage. Please compare the count of our tent's poles and stakes compared to other manufacturers. The extra webbing and reinforcing necessary for these additional side poles and tent stakes also make a much stronger tent top.

OHenry party tents are built with top quality first run materials, made right here in the U.S.A. We build all our tent tops and sidewalls; we DO NOT import them. If you need a frame tent or pole tent that will stand the test of time, you will be glad when you invest in an OHenry party tent.

OHenry Party Tents are your best choice if you are in the party rental or event tent rental business and need a heavy duty, quality party tent. OHenry tents are heavy duty commercial tents which are designed specifically for the party tent rental and party rental industry.

OHenry tents are built to last many years, and best of all, our commercial tents are in stock waiting for you. We keep all sizes of pole tents, frame tents, and high peak tents in stock, ready to go to work for you!
