

OHenry Productions Inc.

*OHenry Tents Last a Lifetime*

## Frame Tent Brochure for 2012

**Tired of paying too much for tents that wear out too soon? We won't disappoint you. Large inventory of frame tents in stock.**

*Party Tents, Pole Tents and Frame Tents, We have your Tent!*  
OHenry Productions Inc. 3859 Chappel Hill Rd. Waco, TX. 76705 254-714-1103  
[www.OHenrytents.com](http://www.OHenrytents.com)

## Our History

Since 1979 Ohenry productions Inc. has been manufacturing heavy duty vinyl tents for the tent industry. We specialize in the construction of a tent that will endure the abuse of the weather, and the wear and tear of daily use.

We use only top quality first run materials, most of them made right here in the good old U.S.A. Standard sizes are from 15' x 15' to 80' x 300'.

If you need a tent that will stand the test of time, you will be glad when you invest in an Ohenry tent.

Ohenry does not rent tents. We have chosen to concentrate entirely on manufacturing our tents and shipping them worldwide.

The ATF used a donated Ohenry tent for shelter during the Waco standoff with David Koresh. In 2003 Ohenry answered the call when our boys in Afghanistan needed temporary housing. Several semi truck loads of tents were air freighted to Afghanistan by the U.S. Army.

Again Ohenry was there with truck loads of tents for use by FEMA during the onslaught of the hurricanes which ravaged Florida in 2004. These tents were delivered to FEMA within 24 hours. Again in 2005 truck loads of Ohenry tents served as temporary housing during Katrina.

## Our Mission

Our mission at Ohenry Productions is to build the finest tent in the world, at an affordable price. Tents which will endure the test of time, and be simple to install. We use only materials made right here in America whenever possible.

A minimum of 10% of the proceeds of all our gross sales is given to charity. We are involved not only in our local community, but in other countries as well.

Presently, we have completed our investment in the construction of fifteen new churches in Mexico, as well as three churches in Peru! In 2006 we were able to complete the exterior finish including all the windows and doors on a large medical center in central Romania. Also in 2006 we completed construction on our first Romanian church building. In 2011 we are continuing a local outreach called Waco Outreach Foundation to assist in charitable projects in our local town.

## Frame Tent Versus Pole Tent

If you are considering purchasing a frame tent, there are a few things we would like to make you aware of so you can wisely choose between a frame tent, or a pole tent. Frame tents are more expensive than pole tents.

Typical installation time for a 20'x30' frame tent = 4- men 1.5 hours  
Typical installation time for a 20'x30' pole tent = 2-men 20 minutes  
Typical installation time for a 40'x80' frame tent = 10 men 6-7 hours  
Typical installation time for a 40'x80' pole tent = 2 men 1.5 hours

**20x20 Frame Tent**

A pole tent is much more portable than a frame tent. Pole tents are easier to install than a frame tent.

**20x20 Pole Tent**

Frame tents are NOT "Free Standing" as sometimes advertised. They must be staked out just like a pole or tension structure must be. The only exception is for indoor use. Pole tents will withstand higher wind loads than a frame tent.

The hardware on a frame tent is very specialized, including pieces which are either cast aluminum, or welded steel. If you lose or damage one of these pieces, your frame tent is useless until you can find a replacement part from the manufacturer.

Frame tents do have some advantages for certain situations which do not allow complete staking.

## West Coast Frame Tent Features

- All tops are extra heavy duty 17oz block out
- Fully re-enforced patches at wear points
- Straps and buckles sewn in 32oz of material
- Rust resistant buckles
- Curtain rope double re-enforced
- Storage bag included
- 2" 6005 T-5 schedule 10 anodized marine aluminum tubing
- Frame parts attach together with pins
- Telescoping heavy duty legs available as an option
- Corners, center crown, and side fittings are welded steel
- 30' & 40' wide tents are expandable sectional type
- Stakes & guy ropes are included with purchase

# OHenry Warranty & Policies

## Warranty

All new tents are warranted against manufacturing defects. This warranty is for one year. Defects are limited to any defect which is a result of the manufacturing process. This warranty does not imply, or express coverage for any damage done to tents as a result of normal wear and tear, or storm damage. Excluded as well, are pin holes, punctures or abrasions which can and do occur during shipping, storage and handling. Additionally, and specifically, rope burns caused by pulling the center pole rope out from under the tent while the tent is still rolled up in a roll will not be covered under this warranty. The proper way to untie the tent section and avoid rope burns is clearly stated in the "warning" label included with each tent.

## Common damage types and causes

**Pin holes.** Pin holes are tiny holes which can only be seen from underneath when tent is installed. They are not large enough to allow leakage of water, but do allow sunlight to shine through the material. Normally these are caused by the tent coming into contact with objects on the ground such as...

- Gravel or rocks
- Grass burrs & twigs
- Asphalt & Concrete

**Abrasions.** Abrasions are caused when any object is allowed to rub against the tent material. Abrasions are commonly caused by...

- Handling the tent section while it is rolled up, and allowing it to move against another surface.
- Loading and unloading the tent section.
- Sliding the open section around on the ground for positioning.

**Rope burns.** Pulling a rope out from under a tent section and letting the rope build up friction against the tent material.

**Snags, Tears and Cuts.** This damage is usually caused by...

- Handling the tent section while it is rolled up, and allowing it to move against another surface.
- Loading and unloading the tent section.
- Moving the unfolded section across a sharp item which is underneath the tent prior to raising tent.
- Tent being punctured by a pole pin or other sharp object.

None of these damage types are covered under OHenry's warranty. Our warranty only covers manufacturing defects. All the types of damage described above are the normal result of handling when extreme care is not used to prevent damage. Each tent comes with a patching kit which is to be used for repairing minor damages such as those described above.

## Shipping Liability

Once a shipment has been picked up by the freight carrier, OHenry Productions has no control over the timely delivery of the shipment, or damages which may occur. OHenry Productions cannot guarantee that a shipment will be delivered on time as promised by the freight carrier. If your shipment is damaged, please do not sign the shipping papers as being "received in good order". Make a note of the damage on the bill of lading which the truck driver asks you to sign. Also have the driver sign the bill of lading and acknowledge the damage. We will do all we can to assist you if your shipment is damaged. However, if you do not make a note of the damage on the bill of lading, we cannot file a claim for damages.

\*\*Tent poles can be damaged by the freight company during shipping. Damaged poles are not covered in any way for factory exchange. A claim must be filed with the shipper to collect for damages done to poles.

## OHenry Warranty & Policies (cont.)

### Exchange & Return Policy

All purchases are final. OHenry Productions does not have a buy back or refund program. Returns can only be made in the event of manufacturing defect, in exchange for a replacement product. Returns shipped back to OHenry without prior authorization will be refused. Exchange will not be authorized without photographic proof of the alleged defect. The required format for photographic evidence is digital. If defect is deemed by OHenry to be a non manufacturing defect such as abrasion, pin holes, cuts or tears which are the result of shipping, handling or storage, the product in question will not be approved as a warranty exchange.

Shipping arrangements for returning any tent are the sole responsibility of the customer. Freight charges for shipping the tent back to OHenry must be prepaid by the customer. Freight charges for replacement tents must be prepaid to OHenry by the customer before a replacement tent or part can be sent to the customer.

### Custom Order Policy

OHenry Productions is happy to do custom orders for its customers. A Custom Order is defined as; any size not listed on our web site, or any color combination which requires us to special order materials. Custom orders must be paid for in advance prior to any purchase of materials needed for said custom order. All purchases are final on custom orders and no refunds will be given on any custom order. The Cancellation Policy does not pertain to or apply to custom orders.

#### Required Permits

OHenry Productions has no knowledge of applicable city or county building or tent permits in your area. It is the buyer's sole responsibility to investigate applicable permit requirements in their area prior to purchasing their tent.

### Leakage

OHenry tents are as water tight as they can possibly be made. However, a tent by nature does allow some leakage. The side walls are removable by design. This tends to allow water to enter where the walls are connected to tent during windy conditions. Also, sectional or expandable type tents are designed with a lace line which connects the sections together. The lace line is covered by a weather flap, which helps to minimize leakage. However, some leakage can and will occur directly underneath the lace lines.

### Cancellation Policy

All purchases which are canceled prior to being shipped with incur a re-stocking fee. The restocking fee is 20% of the purchase price.
