

Dealers Wanted!

As an authorized Ohenry dealer, there are four basic benefits to you as a dealer.

- You will experience more traffic to your website from people who visit the Ohenry site and prefer to contact a local dealer for rentals or sales.
- As an authorized dealer, you will be eligible for substantial discounts on any tents or accessories you purchase from Ohenry whether for your own use, or for resale.
- When you have a customer who purchases an Ohenry product from your company, you will realize a profit based on the difference in price which your customer pays you for that product, and the price you pay Ohenry.
- As your purchases of Ohenry products increase, there are additional incentives paid to you based on your sales volume for each twelve month period.

Ohenry Products include:

- * High Peak tension tents
- * Traditional Pole tents
- * Frame tents
- * Side walls
- * Ratchet Straps
- * Stakes and other hardware
- * Stake pullers

Earn
extra
cash!

Dealer Benefits:

- No cash investment!
- Ohenry drop ships directly to your customer.
- No inventory required!
- Your customers will have full access to the Ohenry web site for prices, specifications & catalogs.
- You need no literature!

Dealer Requirements:

- Must be established business with 3 year history.
- Applicant must be in associated industry (tent & party rentals or other canvas products).
- Agree to dealer contract terms.
- Must have website (or purchase one from Ohenry).
- Provide codes to existing web site so the link to the Ohenry "mini web site" can be posted. We can also work through your webmaster to accomplish this if you prefer.
- Established credit rating.

Ohenry Productions Inc.

Ohenry tents last a lifetime

Ohenry manufactures a complete line of:

- Traditional Pole Tents
- High Peak Tension Tents
- Frame Tents

Ohenry builds commercial grade tents designed specifically for the tent rental and party rental industry. When you buy your party tent from Ohenry you will be investing in a tent designed to endure the test of time. High peaks tents, frame tents and pole tents.

"Mystique" high peak tents

High peak pole tents are classified as "tension" tents. They are highly portable like a traditional pole type tent, and because of aerodynamic design highly resistant to extreme winds.

High peak tents are extremely desirable for weddings, and other events where an elegant look is desired. While more expensive, the high peak commands admiration.

Company History

Since 1979 Ohenry productions Inc. has been manufacturing heavy duty vinyl tents for the tent industry. We specialize in the construction of frame tents, high peak tension tents and pole tents which meet the demands of the party tent rental industry.

Ohenry party tents are built with top quality first run materials, made right here in the good old U.S.A. Standard tent sizes are from 10' x 10' to 100' x 200'. If you need a frame tent or pole tent that will stand the test of time, you will be glad when you invest in an Ohenry party tent.

Traditional pole tents

Traditional pole type tents are the most popular style of tent for all sorts of uses from party tent rentals to disaster relief tents and revival tents.

Traditional pole tents are extremely portable making them an ideal choice for those who have need of a party tent but have limited means of transporting their tent. You can even fit all the components of a 60x90 pole tent in a standard 3/4 ton pickup bed.

Traditional pole tents provide more covered area for less money than any other type of tent. This makes a pole type tent ideal for covering extremely large areas efficiently. Ohenry pole tents are designed to be used over and over again for many years.

We are proud members of:

Frame type tents

The frame type tent is ideal for use indoors where staking is not possible, or in applications where a center pole is undesirable. or the tent needs to be installed against a building. Frame tents should be staked out just like a pole tent when used outdoors.

Frame tents were originally conceived as a design which eliminates the center pole or poles of a traditional pole tent. This is the main reason for this type tent. While eliminating the center pole can be advantageous, the frame type design creates it own set of difficulties.

The biggest difference between pole and frame type tents is that frame tents use specialized hardware, and require much more labor to install.
